## Knife Sheaths

### Best Leather Sheaths

Produced in the finest quality leather with either a light tan, oiled tan, black or basket-weave finish, our best leather sheaths are cut and sewn by our highly skilled team. Stringent quality control checks are carried out at each stage of production.

We have a wide range of ready-to-run templates for standard sizes and shapes of blade and we are happy to adjust our traditional designs for any size of knife.

### Split Leather Sheaths

Designed for customers needing a more cost-effective alternative, our split leather sheaths are produced by the same team and methods as the best leather alternatives.

These sheaths make no sacrifices on fit, design or craftsmanship, but use cheaper 'split leather' as the base material.

### Personalise - Crests, Logos & Insignia

With a wide range of designs and finish options, there is just one more ingredient to make the equipment unique - the insignia. We can emboss with your company logo or indeed the logos of your customers - club logos, regiment insignia, royal crests can all be handled by our dedicated team.

### Don't take our word for it

We work extremely hard to keep our customers satisfied and regularly ask them how they rate our service. The graph below shows the results of our 2010 customer survey. We will never be complacent but we are pleased to see that 96 percent of our customers rated us as very good or excellent in terms of value for money.
